

Non timber forest resources: compatible management and sustainability

Evelyn H. Hamilton

Volunteer Session

The session will feature speakers from BC presenting the results of their research on sustainable management of forests to yield timber and non timber products (i.e. compatible management). It will include presentations on general concepts of compatible management (Brian Titus CFS and Wendy Cocksedge RRU) management for pine mushrooms (Shannon Berch MOFR and Richard Winder CFS) morels (Micheal Keefer and Tyson Ehler) chanterelles (Tyson Ehler) berries (Tom Hobby RRU Evelyn Hamilton MOFR Phil Burton CFS and Michael Keefer) salal (B. Titus and W. Cocksedge) other floral greens (W. Cocksedge) and other species (Darcy Mitchell RRU).
